Priya Nair

CHIEF FINANCIAL OFFICER

Finance leader with eighteen years across SaaS, retail and audit. Joined Novadesk at ₹40 crore in revenue and helped grow it past ₹190 crore, building the finance team, the forecasting model and the controls that got it through a \$28M Series C. Spent the first half of her career at a Big Four firm, so she reads a balance sheet the way most people read a headline.

Novadesk Technologies Chief Financial Officer

2019 – Present

Mumbai, India · B2B SaaS · customer-support software

- Took the company through a \$28M Series C, running the raise from first model to signed term sheet in four months.
- Cut the monthly close from 12 days to 4 by rebuilding the reporting stack and retiring three legacy tools.
- Grew gross margin from 61% to 74% over two years by repricing the enterprise tier and renegotiating cloud contracts.
- Built the FP&A function from scratch — hired a team of six and put board-ready forecasting in place.

Notable Achievements

- Closed a \$28M Series C and two earlier bridge rounds without diluting the founders below control.
- Rebuilt month-end close to four days, giving the board numbers a week earlier every month.
- Took gross margin from 61% to 74% and turned the company cash-flow positive a year ahead of plan.
- Qualified as a Chartered Accountant in the top 50 nationally in her cohort.
